CHRYSANTHEMUMS

Our **CHRYSANTHEMUM DISPLAY**, this year, will combine a cut flower display of the most dependable and popular of the older varieties with many of the newer sorts.

While we will show blooms of most of the varieties described hereafter, during the 12 days of the show, some of the better late blooming kinds will not be in flower. These will be shown as they come into bloom.

Mr. James Turnbull, well-known Chrysanthemum expert, will be in attendance during the two week ends of the Display to advise you on any Mum problems.

During the Display we will have on sale a gorgeous collection of Mums in large pots and gallon containers. This collection will include flowing Cascades and well trained Espaliers as well as the conventional types. Some of the later varieties, while available, will not be in flower during the Show. So, until the end of the Chrysanthemum season, you Mum minded folks will find a weekly visit to our Nurseries well worth while. Approximate blooming date after each name.

Prices quoted are for plants established in Plant Bands (or bare-root, if sent by parcel post).

Plant Bands. Orders of \$2.50 or more may be called for, or will be delivered without charge on our regular truck routes, between April 1 and July 1. Orders of \$2.00 or more taken for delivery off our regular truck routes will be sent Bare-root by parcel post prepaid between May 10 and June 10.

No C. O. D. orders accepted for parcel post delivery.

Plants in Large Pots and Gallon Containers available immediately. Free delivery on our regular truck routes if Chrysanthemum order or Chrysanthemum order combined with order for other material amounts to \$2.50 or more.

Printed Cultural Instructions Available at Nursery.
